RESPONSE TO ELECTION / RESTRICTION REQUIREMENTS

Assistant Commissioner of Patents
Washington, DC 20231

Sir:

The election/restriction requirements dated October 21, 2004 holds that this application contains claims directed to two patentably distinct inventions and four patentably distinct species.

First, Applicants are required to elect one of the following patentably inventions for prosecution on the merits under 35 U.S.C. §121:

Group I - claims 1-22 drawn to a head cap unit; or

Group II - claim 23 drawn to a method.

Second, Applicants are required to elect one of the following patentably distinct Species for prosecution on the merits under 35 U.S.C. §121:

Species A - Figures 1-7;

Species B - Figure 8;

Species C- Figure 9; and

Species D - Figure 10.

Additionally, the Office Action indicates that there is no generic claim. However, Applicants believe that at least independent claim 1 is generic to all of the Species A-D.

In response, Applicants hereby elect Group I – Claims 1-22 (apparatus claims) and Species B shown in Figure 8 *without traverse*. Applicant believes that claims 1-4, 6-12, 15-18 and 20-22 read on Species B shown in Figure 8.

Accordingly, Applicants respectfully request examination of claims 1-4, 6-12, 15-18 and 20-22, since they read on the elected Species B shown in Figure 8. Claims 5, 13, 14 and 19 are believed to be directed to the non-elected embodiments. Thus, claims 5, 13, 14, 19 and 23 can be withdrawn from consideration in this case. However, Applicants respectfully request that these non-elected species claims 5, 13, 14 and 19 be considered upon the allowance of a generic claim in accordance with U.S. patent practice.

Prompt examination on the merits is respectfully requested.

Respectfully submitted,

David L. Tarnoff
